

As a commuter in Atlanta, GA, I am painfully aware how traffic conditions can effect my morning and evening commutes. I find XM radio an excellent companion during the 45 minute to 1 hour commutes I must endure. Having weather and traffic reports constantly delivered over XM will be a significant benefit as I plan my routes.

I respectfully urge the FCC to reject the NAB's petition 04-160 and allow XM to deliver the traffic and weather reports I need.
